

DAMAGE INFORMATION REPORTING TOOL (DIRT)

- Access by calling 811 or via Remote Ticket Entry

The following questions must be answered to report a Damage:

The first two questions must be answered YES before you can continue to the rest

Have you already notified the Facility Owner or Facility Operator?

If the damage resulted in the escape of any flammable, toxic, or corrosive gas or liquid, or endangering life, health, or property, did you contact 911?

Type of event

Date of event

County

Right-of-way where event occurred

What type of facility operation was affected?

What type of facility was affected?

Type of excavator

Type of excavation equipment

Type of work performed

Was the One Call Center notified?

Did the damage cause an interruption in service?

What was the root cause?

Exemption to the requirement for notification or marking for excavation or blasting

- Can be used by all excavators
- Does not meet MPSC damage reporting requirements for Facility Owner/Operators currently, we are working with the MPSC to streamline the process
- Will be sent anonymously to Michigan Virtual Private DIRT which is part of the CGA DIRT Collection Report
