

TRI-COUNTY DPA
5/17/18 @9AM
Saginaw CRC

ATTENDEES: Scott Hare & Mike Ecker – Saginaw CRC, Eric Baumer – USIC, Ed Brown – Davison City, Tarah Kile – MPSC, Jeff Howie – Saginaw City, Cathy Kelbey – CMS, Omar Orizaga – CMS, Dick Cranell – Tri- County.

ABSENCES:

PRESENTATION: Paul Harding brought up the ticket entry screen to illustrate how Tickets Without Borders works. We brought up the local area, and Jeff from Saginaw discovered a few areas that were being missed notification-wise, so he was given info on how to update. The somewhat impromptu presentation spurred a lot of discussion, and is the best way to show how the system works.

DISCUSSION: There was discussion about a few different subjects. One regarded when a utility puts out tickets for a hundred addresses to be marked within 3 days, and the best way for that municipality with limited staff to deal with the situation (005 – Ongoing Coordination followed by immediate phone call to excavator). Another option for whole subs where gas services are being replaced is to schedule a joint meet for the project, so beginning & ending points could be discussed onsite. One other topic was about a telecom company that continually has issues, and a question was posed if an ordinance would need to be passed for a gold shovel community to have total say in whoever works in their R-O-W. After further investigation, it would determine on the policy of the specific municipality whether or not an ordinance would be created.

ISSUES:

NEXT MEETING

Topic: TBD
Date: 6/21/18
Time: 9am
Location: Saginaw CRC
