

DPA NAME: W Michigan

Date, Time: November 7, 2018 1:30-3:00pm

Location: Plainfield Water Distribution Center

ATTENDEES: James Nowak, USIC
Jeff Dickey, Consumers Energy
Pam Borgeld, DTE
Trent Devos, Kent Power
Brian Oczepek, Kent Power
Bill Strandberg, Newkirk Electric
Matt Weldon, Plainfield Twp
Melissa Franks, Newkirk Electric

ABSENCES:

PRESENTATION: No Marks Ticket Video

After the video presentation, Matt Weldon said he just saw one of these and was wondering about it.

DISCUSSION: They are keeping their quarterly meetings so next one will be in February (date tbd). Melissa Franks brought up the topic and everyone agreed good contact info needs to be provided on tickets; I let them know that contact info can be changed by the caller through a retransmit and they can leave an alternate contact in the locate info field. She asked USIC why do they often get a delay for locating on tickets – they use ongoing coordination when this happens. They have work backlogged and are just trying to keep up. They also are trying to be better with their own PR codes. For the depth of lines being not what's expected, Jeff said they can often only tell you what it was when put in.

I explained how RTE users and RMAP holders can add attachments to tickets. Mary from Plainfield wants to know what reports she can generate with her RMAP account.

ISSUES: Double K using ped #'s and not addresses on their locate info. Melissa was told DTE won't stake with ped #'s and USIC won't stake with addresses but that seemed to be incorrect.

NEXT MEETING

Topic: tbd

Date: tbd

Time: Tbd
