

JUNE LIVE! OPEN MIC WITH MISS DIG 811 NOTES

The topic of discussion for JUNE was Gold Shovel Standard Field Basics

- The Field Basics Course was made to be used by Gold Shovel Standard Certified companies and municipalities. It satisfies the annual basic awareness training portion of the Gold Shovel Standard requirements.
- Field Basics is a twenty-minute video with a quiz at the end. It can also be used as an on-boarding tool or a training video for field workers. Once you watch the video and pass the quiz you receive a certificate that is good for one year.
- The Online GSS Field Basics Course is free and can be accessed on our website, www.missdig811.org, under the Education tab.
