

DPA NAME: W MI

Date, Time: 2/13/19 1:30pm

Location: Plainfield Water Distribution Plant

ATTENDEES: Matt Weldon, Plainfield
Trent Devos, Kent Power
James Nowak, USIC
Jack Hindes, USIC
Gary Seger, North Kent Sewer Authority

ABSENCES:

PRESENTATION: Field Basics Video

DISCUSSION: Everyone liked the Field Basics video and thought it was a good thing for field workers. They still think many do not understand the MISS DIG 811 system.

Require RTE applicants complete MISS DIG 811 Certification or the Field Basics Module before being able to have an RTE account.

Clamping down on the people who repeatedly abuse placing tickets.

A feature or function to guarantee that they are on site when they call in destroyed markings

Can we make a required depth (4-5 ft) that excavators must hand expose before calling in for additional assistance?

ISSUES: Provide ticket examples for companies that abuse.

Can tickets be red flagged if they are repeatedly called in by the same excavator for the same location over and over again?
