

Pre-Construction/Pre-Design Meetings

To help coordinate meetings between involved parties on upcoming projects

Benefits

- ➔ Allows contractors and facility owners to coordinate in person (or virtually) on upcoming projects.
- ➔ Best chance to manage expectations and clarify project goals.
- ➔ Identify potential conflicts and overly-vague specifications and get them resolved before work begins.
- ➔ MISS DIG 811 had the ability to gather the correct facility owners and contractors for the meetings.
- ➔ MISS DIG 811 has contact with 1,613 member facility owners and operators along with approximately 70,000 contractors.

How it Works

1. Contact Member Services to coordinate a Pre-Construction or Pre-Design meeting.
2. MISS DIG 811 will reach out to the contractors and facility owners that are in the area of work.
3. Invites will be sent and a meeting will be hosted by MISS DIG 811 in person or virtually.
4. During the meeting, the group can identify potential conflicts that may arise and discuss ways to resolve these problems before works starts. This saves a lot of time and money.
5. MISS DIG 811 will provide and record any action items to attendees.

Contact Member Services at membersupport@missdig811.org or by phone at 800-482-7161 if you are interested in having a successful Pre-Construction or Pre-Design meeting.
