

Additional Account Features: Reports

All, or some, of these features can be accessed through the RMAA, RMAF, RMAL, and RMAP accounts.

- 1 To begin, either go to newtin.missdig.org or go to our website at www.missdig811.org and select *Member Login*.

Please do not bookmark the direct link.

- 2 This will bring you to a login screen that can be used to log into *any* RMA account. Enter the login credentials for your RMAA, RMAF, RMAL, or RMAP account. This information was emailed to you upon activation of your account. Note that the password is case sensitive.

Click *Submit*.

- 3 Once you are logged in, the sub-header of the account main menu should read **(RMAA)**, **(RMAF)**, **(RMAL)**, or **(RMAP)**.

RESPONSES

Positive Response Monitor Dump exports ticket and positive response data to a .csv for all tickets, received from member codes associated with the user's account, on the live server

Response Analysis: Displays the number of days before and after posting due date that a response was provided by the member for a ticket; search by code or date range; broken down by ticket and revision number

Response Check Log: Displays dates when tickets were checked by excavators for a response status; shows which program was used

Response Definitions: Current color-coded response code definitions

Response Inquiry: Shows responses posted by member by ticket or due date

Response Stats: Displays individual response statistics as far back as 90 days

Response Stats Analysis Report: Divided into two sections—the top section provides counts of the response types that were submitted by the facility owner/operator; the bottom section displays the count and percent of responses that were submitted prior to (and after) the required response due date

Response Stats Monthly: Statistics of response types provided by member by month and member code

Response Stats with Ticket Number: Double-click on response type for a list of tickets received by a member code within a date range

Tickets with No Responses: Shows ticket number with no posted response by code and date range
