## AUTHORIZATION FOR TEST CODE CREATION

From time to time, our members benefit from being able to test alternative options or scenarios for ticket delivery (e.g. considering changing TMS providers, updating notification areas, or testing rules). MISS DIG 811 understands the importance of being able to consider these changes without impacting current delivery or response by offering test member codes. Tickets delivered through test codes, which are set up like locator codes, do not appear in Positive Response. Test codes utilized for a duration of less than 30 days are free. For testing that exceeds 30 days, the code incurs a fee of \$300.00 per code for each additional 30-day period (e.g. a member who utilizes a test code for 42 days will be charged a fee of \$300.00, and a member who utilizes a test code for 61 days will be charged a fee of \$600.00). If you anticipate long-term or intermittent use of a test code, consider establishing a permanent locator member code for testing purposes. Please note that MISS DIG 811 does not have a testing environment for Positive Response—only ticket delivery.

### Establishing a Test Code

To establish your test code, MISS DIG 811 needs some information regarding the code and the member. Please complete the below information.

Member Name: \_\_\_\_\_

Contact Name: \_\_\_\_\_

Contact Phone: \_\_\_\_\_

Contact Email: \_\_\_\_\_

Ticket Management Software: \_\_\_\_\_

Affected Member Code(s): \_\_\_\_\_

### Test Code Use and Set-Up

#### Testing Alternative Delivery

Delivery Email: \_\_\_\_\_

#### Ticket Delivery Formatting (Choose one)

0: Default Gemini format

1: Gemini format w/ cell number, longer work type/done for

2: Gemini format w/ T/R/S

3: Gemini format w/ T/R/S, cell number, and longer fields

6: Mobile device format

7: Cell phone SMS texting format

8: XML w/ arrays for members/grids/shape points

9: XML w/ XSD and flat lists for members/grids/shape points

10: XML format 8 + cell number w/o metadata

11: XML format 9 + cell number
