

Land Use Only for COVID-19

To assist the City of Detroit and other members in communicating and tracking work moratoriums put in place to protect local hospitals and temporary medical sites during the COVID-19 Pandemic, MISS DIG 811 is extending our offer of free set-up on member codes to include Land Use Only codes.

A Land Use code contains a mapped notification area of the locations you would like to monitor. When a MISS DIG 811 ticket is placed in these areas, the member is notified. This member code would not require a Positive Response; MISS DIG 811 will provide the following auto-response:

019 – WORK MORATORIUM DUE TO CRITICAL INFRASTRUCTURE: To ensure there are no service interruptions to medical and temporary medical sites there is work moratorium in place. If your work is essential and required to be performed, reach out to this entity directly.

Ticket delivery formats for Land Use codes include both email and text message. As always, each code can contain only one ticket delivery destination. Additional codes can be set up by location or for additional delivery. You may also opt not to receive tickets, or to use a secondary delivery code for emergency tickets in the area. Members can also use their Remote Member Access (RMA) account to monitor and respond to tickets.

To set up a Land Use code, as a member, please complete the [Member Information and Ticket Delivery Set-Up form](#) and provide an updated [Member Facility Types sheet](#) that includes Land Use among the other facilities you own. If you want to take advantage of the additional codes for delivery, please complete the [Authorization for Email Msg](#) form for additional email delivery or the [Authorization for Txt Msg](#) form for additional text messages. Forms can be located by selecting the “Resources” tab and then expanding the “Additional Membership Forms” section. These forms can be returned to membersupport@missdig811.org. If you have any questions or would like to discuss other set-up options that may assist, please contact us at 800-482-7161.
